# RECYCLING GUIDELINES

Stafford is experiencing rapidly increasing costs in the operation of our Transfer Station and Recycling Center. The town no longer operates as a landfill, and each ton of material hauled out of the Center by a commercial operator brings 2

charges to the town:

#1 - hauling charge .

#2— tipping charge.

Careful disposal and recycling practices are compulsory. Please take the time to review these revised recycling guidelines and follow them carefully. Your cooperation and recycling efforts have a positive impact on every tax-payer and pay off on the local, state and global level.
